

Name	Day	Time-slot	Talk length	Room	Position	Contributions, Sessions, Talks	Abstract nr.
Aleksandra Sniatkowska	FRIDAY June 6th	09:00-10:30	5m	A	Presenter	Contrast-Enhanced Ultrasound of focal liver lesions in pediatric patients.	68
Aleksandra Sniatkowska	Poster	Abdominal (GI&GU)			First Author	Contrast-Enhanced Ultrasound of focal liver lesions in pediatric patients.	68
Alessandro Crocoli	FRIDAY June 6th	16:00-17:30	20m	B	Speaker Clinical	Surgery for lung metastases and the role of new imaging modalities	
Alex Alexandrescu	THURSDAY June 5th	16:00-17:30	7m	B	Presenter	Evaluation of congenital developmental pediatric neck masses through different imaging modalities	37
Alexandre Parpaleix	FRIDAY June 6th	11:00-12:30	7m	A	Presenter	Enhancing fracture and elbow joint effusion detection in pediatric X-rays using AI : a multi-reader multicentric study	222
Alexis Ollitrault	WEDNESDAY June 4th	16:00-17:30	20m	A	Speaker	Neonate and infant with common neurometabolic disorders: a guide to the differential diagnosis	
Amaka Offiah	THURSDAY June 5th	16:00-17:30		A	Moderator	Child abuse Task-force Session:	
Ana Filipa Geraldo	WEDNESDAY June 4th	16:00-17:30	20m	A	Speaker	MOGAD and beyond: all about neuroinflammation and the child	
Anca Ioana Anghel	Poster	Education			First Author	Unraveling appendiceal mucocele: imaging insights and differential diagnosis	219
Anca Ioana Anghel	FRIDAY June 6th	09:00-10:30	5m	A	Presenter	Unraveling appendiceal mucocele: imaging insights and differential diagnosis	219
Andrada Popescu	TUESDAY June 3rd	09:00-10:30	20m	A	Lecturer	Cardiac CT - How to do it in children?	
Andrada Popescu	TUESDAY June 3rd	09:00-10:30	20m	A	Lecturer	Cardiac MR - How to do it in children?	
Andrada Popescu	TUESDAY June 3rd	16:00-17:30	20m	A	Lecturer	Fontan circulation imaging - cardiac CT/MR and beyond	
Andrada Popescu	TUESDAY June 3rd	16:00-17:30		A	Moderator	Updates	
Andrea Gonzalez Cammareri	Poster	Oncology			First Author	Shear Wave Elastography in pediatric cervical lymph nodes. How much is too much? Preliminary results for a quantification tool	224
Andreas Karakousis	Poster	Abdominal (GI&GU)			First Author	Magnetic Resonance Enterography. Building and optimizing an exam protocol: A single institution experience over 10 years and literature review.	208
Andreas Karakousis	Poster	Education			First Author	Ultrasonography in inflammatory bowel disease: where are we now?	204
Andreea Ciornei-Hoffman	WEDNESDAY June 4th	09:00-10:30	7m	B	Presenter	Reliability of Automated Intracranial Volume Measurements by Synthetic Brain MRI in Children	59
Andreea Ciornei-Hoffman	TUESDAY June 3rd	14:00-15:30	15m	B	Lecturer	Differences Adults vs. Children in CT	
Andreea Rossi	THURSDAY June 5th	11:00-13:00	5m	A	Laudatio	Laudatio for Damien Grattan-Smith -RECORDED	
Andrei Corniciuc	WEDNESDAY June 4th	09:00-10:30	7m	B	Presenter	An atypical clinical presentation of a congenital mediastinal tumor	61
Andres Garcia Bayce	FRIDAY June 6th	11:00-12:30	20m	B	Speaker	Cases from The Sociedad Latinoamericana de Radiologia Pediatrica (SLARP)	
Andrés García Bayce	Thursday June 5	17.30-19.00	5m	A	Guest SLARP	Invited Guest. Short presentation in the ESPR General Assembly.	
ANGELICA BOSCO	Poster	MSK			First Author	Scurvy (hypovitaminosis C): old disease and new lessons from MR signs. A single center case series	178
Anna Papadopoulou	Poster	Case Report			First Author	A rare variant of accessory hemiazygos vein as an incidental finding on CT scan	203
Anna Papadopoulou	Poster	Case Report			First Author	Malrotation, midgut volvulus and ileal atresia in a single patient	207
Anna Papadopoulou	Poster	Case Report			First Author	A case of "wandering spleen" in an adolescent girl with recurrent episodes of abdominal pain over the last 2 y	211
Anna Tahmazyan	Poster	Case Report			First Author	A Rare Case of a 7-Year-Old Child with a Neglected Parasitic Disease	135
Annabel Felton	Poster	Abdominal (GI&GU)			First Author	Manifestations of gastrointestinal pathology on neonatal chest imaging.	89
Annelotte Pries	WEDNESDAY June 4th	11:00-12:30	20m	B	Speaker Clinical	NODOK procedure & findings (Dutch, unexpected unexplained death of children 1 month to 18 yrs)	
Annemieke Littooi	THURSDAY June 5th	16:00-17:30	15m	B	Invited speaker	DWI pitfalls in oncology	
Annemieke Littooi	FRIDAY June 6th	16:00-17:30	20m	B	Speaker	Imaging and identification of suspicious nodules and how to discriminate between benign lung nodules	
Apostolos Kouriotis	Poster	Cardio-Thoracic			First Author	Beyond the X-Ray: Revolutionizing Pneumonia Diagnosis and Monitoring with Lung Ultrasound in Pediatrics	163

Arjeta Docaj	Poster	MSK			First Author	Pediatric tuberculosis of the knee, MRI features	124
Athanasios Zamparas	Poster	Education			First Author	Challenges in Pediatric Chest Radiography: Interpreting External Object Superimposition.	151
Audena María García Kempf	THURSDAY June 5th	16:00-17:30	7m	B	Presenter	Should skeletal survey be replaced by PET-MRI and WBMRI in Langerhans Cell Disease diagnosis and follow up?	153
Aurelie d'Hondt	WEDNESDAY June 4th	11:00-12:30	20m	B	Speaker	Scanning protocol PM-MRI	
Aurelio Secinaro	THURSDAY June 5th	09:00-10:30	7m	B	Presenter	Development of a Novel Classification System for Pulmonary Vein Stenosis: Improving Diagnosis and Clinical Management in Pediatric Patients	138
Barbara Limberger Nedel	WEDNESDAY June 4th	09:00-10:30	7m	B	Presenter	Cervical rib leading to thoracic outlet syndrome in a teenager: a case report	38
Barbara Limberger Nedel	Poster	Abdominal (GI&GU)			First Author	From birth to teen: uterine and ovarian development assessment on ultrasound	28
Barbara Limberger Nedel	Poster	Neuro			First Author	Pictorial essay: the many faces of neonatal skull	39
Birgit Oppelt	TUESDAY June 3rd	14:00-15:30	15m	B	Lecturer	CT Dose Optimisation – how to achieve with simple tricks	
Bizimi Vasiliki	TUESDAY June 3rd	09:00-10:30	20m	A	Lecturer	The multi-parametric ultrasound for assessment of children with chronic liver disease	123
Bogdan-Stefan Olteanu	WEDNESDAY June 4th	08:30-09:00	10m	A	Introduction	OPENING CEREMONY	
Bogdan-Stefan Olteanu	TUESDAY June 3rd	08:45-09:00	5m	B	Introduction	OPENING	
Bogdan-Stefan Olteanu	TUESDAY June 3rd	11:00-12:30	20m	B	Lecturer	Radiation dose optimisation and the use of DRL's	
Bogdan-Stefan Olteanu	THURSDAY June 5th	11:00-13:00	5m	A	Laudatio	Laudatio Michael Riccabona	
Bogdan-Stefan Olteanu	THURSDAY June 5th	11:00-13:00		A	Moderator	PLENARY SESSION	
Bogdan-Stefan Olteanu	MONDAY June 2nd	08:45-09:00	5m	A	Introduction	WELCOME CEREMONY	
Bogdan-Stefan Olteanu	MONDAY June 2nd	09:00-10:30		A	Moderator	What's inside the black-box?	
Bogdan-Stefan Olteanu	MONDAY June 2nd	09:00-10:30	15m	A	Lecturer	What are "Doses" really measuring?	
Bogdan-Stefan Olteanu	FRIDAY June 6th	11:00-12:30		B	Moderator	WFPI Session: Let's travel again - around the world in 80 challenging cases (BROADCASTING)	
Bogdan-Stefan Olteanu	FRIDAY June 6th	16:00-17:30		A	Moderator	CT & Dose Task-force Session: CDSS, DRLs, Cumulative Doses	
Bogdan-Stefan Olteanu	FRIDAY June 6th	16:00-17:30	20m	A	Speaker	Implementation and use of clinical decision support systems in pediatric radiology	
Bogdan-Stefan Olteanu	FRIDAY June 6th	17:30-18:00	5m	A	Conclusions	PRIZES AWARD & CLOSING CEREMONY	
Bogdan-Stefan Olteanu					BOARD	ESPR Board member	
Branislava Bogdanovic	Poster	MSK			First Author	Pediatric Sacroiliitis with Iliopsoas Abscess and Phlegmonous Spread: The Role of MRI in Diagnosis and Management	150
Brendan Kelly	WEDNESDAY June 4th	11:00-12:30	20m	A	Speaker	How models are trained - why AI won't take over my job!	
Cammareri Andrea Gonzalez	FRIDAY June 6th	09:00-10:30	5m	A	Presenter	Shear Wave Elastography in pediatric cervical lymph nodes. How much is too much? Preliminary results for a quantification tool	224
Carlos Andres Robles Morale	Poster	Fetal			First Author	Neuroimaging Findings in Fetuses with Anemia: A Retrospective MRI Study	139
Carmelo Sofia	THURSDAY June 5th	09:00-10:30	10m	A	Speaker	Structural reporting in fetal MRI; ESPR Fetal TF recommendations	107
Carmen Asavoiaie	WEDNESDAY June 4th	14:00-15:30	7m	B	Presenter	Imaging disorder of sexual development - a case based approach	233
Carmen Asavoiaie	WEDNESDAY June 4th	16:00-17:30	7m	B	Presenter	Ultrasonographic evaluation of the median nerve area and coxofemoral joint capsule thickness – possible indicators of ERT efficiency in peripheral nervous system and musculoskeletal manifestations of mucopolysaccharidoses I, II and IV	217
Carmen OTELEA	WEDNESDAY June 4th	14:00-15:30		B	Moderator	Scientific Session 2: Abdominal (G.I. & U.G.)	
Carmen OTELEA					Local Org. Committ.	Local Organizing Committee	
Carmen-Ana Asavoiaie	WEDNESDAY June 4th	16:00-17:30		A	Moderator	Neuro Task-force Session: How to deal with the encephalopathic child	
Carmen-Ana Asavoiaie	TUESDAY June 3rd	14:00-15:30	15m	B	Lecturer	Pediatric CT - the prerequisites	198
Carmen-Ana Asavoiaie	THURSDAY June 5th	16:00-17:30		A	Moderator	Child abuse Task-force Session:	
Carmen-Ana Asavoiaie					Local Org. Committ.	Local Organizing Committee	
Catarina Costa Ferreira	WEDNESDAY June 4th	16:00-17:30	7m	B	Presenter	Comparative Assessment of the Insall-Salvati Index using X-ray, US, and MRI in children	171

Catarina Gil	Poster	Oncology			First Author	Nasopharyngeal Carcinoma In A Teenager: A Case Report	65
Catherine Garel	THURSDAY June 5th	11:00-13:00	10m	A	Honorary member	Fetal Imaging: a fascinating experience	244
Cato Pauling	Poster	AI			First Author	Generalising a paediatric wrist fracture artificial intelligence model to a novel dataset	184
Celine Habre	WEDNESDAY June 4th	14:00-15:30	20m	A	Speaker	POCUS in fracture detection	254
Chen Hoffmann	Thursday June 5	17.30-19.00	5m	A	Guest ESNR	Invited Guest. Short presentation in the ESPR General Assembly.	
Cherifa Bougharka	THURSDAY June 5th	16:00-17:30	7m	B	Presenter	Imaging features of pediatric fibrous angiomatoid histiocytoma	113
Chris Callaghan	MONDAY June 2nd	14:00-15:30	20m	A	Lecturer Clinical	Renal transplant in children: surgical techniques and what the surgeon wants to know from the radiologist - ONLINE	
Christian J Kellenberger	THURSDAY June 5th	09:00-10:30	7m	B	Presenter	Real-time MRI of congenital lung malformations – a comparison to chest radiography with dedicated structural and perfusion lung MRI as a reference	109
Çiğdem Öztunalı	Poster	Neuro			First Author	The spectrum of temporal bone CT and MRI findings in children with syndromic causes of hearing loss	186
Ciprian Radu Sofariu	Poster	Neuro			First Author	ULTRASONOGRAPHY - PRIMUM MOVENIS IN THE ASSESSMENT OF INTRACRANIAL HYPERTENSION	69
Claire Kathleen Stenson	WEDNESDAY June 4th	16:00-17:30	7m	B	Presenter	Paediatric Reverse Slipped Capital Femoral Epiphysis: A First Description	127
Claire Kathleen Stenson	Poster	Case Report			First Author	Paediatric Reverse Slipped Capital Femoral Epiphysis: A First Description	129
Claire Kathleen Stenson	FRIDAY June 6th	09:00-10:30	5m	A	Presenter	Paediatric Reverse Slipped Capital Femoral Epiphysis: A First Description	129
Clare Simcock	TUESDAY June 3rd	08:45-09:00	5m	B	Introduction	OPENING	
Clare Simcock	TUESDAY June 3rd	09:00-10:30	20m	B	Lecturer	Communication with children and parents	249
Clare Simcock	TUESDAY June 3rd	09:00-10:30		B	Moderator	Top tips for paediatric imaging	
Clare Simcock	TUESDAY June 3rd	11:00-12:30	20m	B	Lecturer	Minimising the need for GA or sedation	250
Clare Simcock	TUESDAY June 3rd	11:00-12:30		B	Moderator	Optimisation of imaging protocols	
Clare Simcock	TUESDAY June 3rd	16:00-17:30		B	Moderator	Radiographers are important too!	
Clarissa Valle	TUESDAY June 3rd	11:00-12:30	20m	A	Lecturer	Follow-up after surgical or radiological treatments for portal hypertension.	
Claudia Sienko	Poster	Oncology			First Author	Imaging Insights into Pediatric Burkitt Lymphoma: the pivotal role of Radiology	36
Claudio Granata	FRIDAY June 6th	16:00-17:30		A	Moderator	CT & Dose Task-force Session: CDSS, DRLs, Cumulative Doses	
Claudio Granata					BOARD	ESPR Board member	
Corina Banu	Poster	Neuro			First Author	Neuroimaging insights into pediatric motor impairment	218
Corona Metz	WEDNESDAY June 4th	09:00-10:30	7m	B	Presenter	INTRACRANIAL PRESSURE CORRELATES WITH BRAIN STIFFNESS MEASURED BY NON-INVASIVE ULTRASOUND-BASED TRANSCRANIAL TIME HARMONIC ELASTOGRAPHY IN CHILDREN AND YOUNG ADULTS	48
Costin Stroie	MONDAY June 2nd	09:00-10:30		A	Moderator	What's inside the black-box?	
Damien Grattan-Smith	THURSDAY June 5th	11:00-13:00	10m	A	Honorary member	Wild Strawberries	
Damjana Ključevšek	WEDNESDAY June 4th	09:00-10:30	25m	A	Speaker	Bowel ultrasound in inflammatory bowel disease from basic to new ultrasound techniques	
Damjana Ključevšek	WEDNESDAY June 4th	09:00-10:30		A	Moderator	Abdominal Task-Force Session: Inflammatory bowel disease	
Dana Maria Georgescu	Poster	MSK			First Author	Scoliosis in children – could it be an easy diagnosis?	160
Daniel Gräfe	Poster	AI			First Author	Real-life benefit of artificial intelligence based fracture detection in a pediatric emergency department	17
Daniel Vasile Musetescu	Poster	Cardio-Thoracic			First Author	Lung Ultrasound: A Game-Changer in Cystic Fibrosis Management?	130
David Biko	MONDAY June 2nd	16:00-17:30	20m	A	Lecturer	Introduction to lymphatic flow disorders in neonates and children - ONLINE	
David Biko	MONDAY June 2nd	16:00-17:30		A	Moderator	Lymphatic flow disorders in children - ONLINE	
Davide Curione	THURSDAY June 5th	09:00-10:30	7m	B	Presenter	Cardiovascular magnetic resonance-guided catheterization in pediatric congenital heart disease and cardiomyopathy: our single-center experience	140
Denise Cochrane	TUESDAY June 3rd	09:00-10:30	20m	B	Lecturer	Patient preparation and environment	
Diana Veiga-Canuto	WEDNESDAY June 4th	11:00-12:30	20m	A	Speaker	Driving AI forwards as a young paediatric radiologist - experiences and lessons learned	
Diana Veiga-Canuto	THURSDAY June 5th	14:00-15:30	20m	B	Speaker	My PhD journey: challenges faced, insights gained	

Dimitra Boviatsi	Poster	Education			First Author	Ultrasonographic insights into rhabdoid tumors of solid organs: exploring a rare entity	137
Doga Yurddas	WEDNESDAY June 4th	09:00-10:30	7m	B	Presenter	Hypothalamic obesity following craniopharyngioma surgery; what is the role of hypothalamic inflammation?	111
Dragos Trifan	Poster	MSK			First Author	Avulsion Injuries in the Growing Skeleton: Diagnostic Challenges and Imaging Insights	158
Dubravka Milutinovic	Poster	Neuro			First Author	CASE REPORT: ORBITAL HEMANGIOMA	119
Dunja Djeric	Poster	Case Report			First Author	Radiological manifestation of congenital syphilis – case report	78
Efthymia Alexopoulou	THURSDAY June 5th	14:00-15:31		A	Moderator	Cardio-Thoracic Task-force Session:	
Elaine Kan	FRIDAY June 6th	09:00-10:30	20m	B	Speaker	Developing a paediatric IR service in a new Children's Hospital	242
Eleni Manoli	Poster	Abdominal (GI&GU)			First Author	Pinworms in appendix ultrasound; an unexpected stranger	177
Eleonore Blondiaux	THURSDAY June 5th	09:00-10:30	10m	A	Speaker	The fetal challenge : an interactive Quizz	
Ellen Collingwood	Poster	Education			First Author	Accuracy of out-of-hours paediatric trauma CT reporting by radiology residents in a major trauma centre	105
Emil Robert Stoicescu	WEDNESDAY June 4th	14:00-15:30	7m	B	Presenter	Evaluation of Renal Function in Children with Congenital Anomalies: Ultrasound Perspectives in Correlation with Scintigraphy and GFR	225
Emil Robert STOICESCU	THURSDAY June 5th	14:00-15:30		B	Moderator	Research Committee Session: Tips & Tricks for next-generation paediatric radiology researchers	
Emil Robert Stoicescu	Poster	Cardio-Thoracic			First Author	Response, and Lung Ultrasound Assessment	114
Emil Robert Stoicescu	Poster	Cardio-Thoracic			First Author	Prospective Observational Study	182
Emil Robert Stoicescu	Poster	Cardio-Thoracic			First Author	Tuberculosis	226
Emil Robert STOICESCU					Local Org. Committ.	Local Organizing Committee	
Enrico de Vita	TUESDAY June 3rd	11:00-12:30	20m	B	Lecturer	MRI Scanning optimisation and MRI safety	
Erich Sorantin	TUESDAY June 3rd	14:00-15:30	15m	B	Lecturer	CT Radiation Exposure over the years	
Erich Sorantin	TUESDAY June 3rd	14:00-15:30		B	Moderator	Optimisation of paediatric CT protocols	
ESPR office TBC	WED + THU				OFFICE STAFF	ESPR Office Staff 2	
Evangelia Manopoulou	Poster	Neuro			First Author	Sonographic monitoring of bacterial meningitis evolution in a premature infant	155
Evangelia Pitsoulaki	Poster	MSK			First Author	Ultrasound in clinically doubtful cases of osteomyelitis: Trustworthy or not?	134
EVANGELOS MOURTOS	Poster	Oncology			First Author	Pediatric Rhabdomyosarcoma: A Pictorial Review of Imaging features	195
Federica Ullo	FRIDAY June 6th	11:00-12:30	7m	A	Presenter	IS THERE A ROLE FOR FETAL CARDIAC MAGNETIC RESONANCE IMAGING IN THE ASSESSMENT OF CONGENITAL HEART DISEASE?	190
Felice D'Arco	WEDNESDAY June 4th	09:00-10:30	15m	B	Invited speaker	Practical approach to Grey Matter Heterotopia: how to describe it , how to interpret it	
Felice D'Arco	WEDNESDAY June 4th	09:00-10:30		B	Moderator	Scientific Session 1 (Neuro & Thorax)	
Felice D'Arco	TUESDAY June 3rd	14:00-15:30	20m	A	Lecturer	Inner ear anatomy: the normal and the abnormal	
Flavio Zuccarino	THURSDAY June 5th	14:00-15:30	20m	A	Speaker	Imaging of paediatric cardiac tumours	
François Chalard	THURSDAY June 5th	16:00-17:30	7m	B	Presenter	Efficacy of MAPK inhibitor on pulmonary Langerhans cell histiocytosis documented by CT in 8 patients	30
Franz Wolfgang Hirsch	THURSDAY June 5th	14:00-15:30	20m	A	Speaker	Pleuropulmonary blastoma in imaging and pathology: why the distinction between PPD and CPAM is difficult for radiologists	253
Franz Wolfgang Hirsch	THURSDAY June 5th	14:00-15:30		A	Moderator	Cardio-Thoracic Task-force Session:	
Frederic Deschamps	FRIDAY June 6th	16:00-17:30	20m	B	Speaker	The role of IR to diagnose and treat lung metastases and its outcome	
Gabriela Crucița Pop	Poster	Cardio-Thoracic			First Author	The Growing Role of Lung Ultrasound in Pediatric Pneumonia: A Radiation-Free Diagnostic Tool	205
Gabrielle Colleran	THURSDAY June 5th	09:00-10:30	10m	A	Speaker	MRI-genetic phenotype correlation	
George Hadjidekov	FRIDAY June 6th	11:00-12:30	15m	A	Invited speaker	Range of Extracranial Fetal Abnormalities Detected by MRI	58
Georgia Fezoulidi	Poster	Education			First Author	Abdominoscrotal hydrocele: Ultrasound characteristics of a rare condition.	149
Georgios Oikonomoulas	Poster	MSK			First Author	Imaging of Sports-related Pelvic Injuries in Adolescents	170

Gianluca Folco	WEDNESDAY June 4th	14:00-15:30	7m	B	Presenter	Secretin-enhanced MRCP in paediatric biliopancreatic pathology: quantification of pancreatic exocrine function	206
Giulia Cassanelli	FRIDAY June 6th	16:00-17:30		B	Moderator	Interventional Task-force Session: Lung nodules and mets - a multidisciplinary session	
Giulia Gnocchi	FRIDAY June 6th	14:00-15:30	15m	A	Speaker	Developing and using an AI tool for clinical practice (fMRU)	247
Giulia Perucca	WEDNESDAY June 4th	09:00-10:30		A	Moderator	Abdominal Task-Force Session: Inflammatory bowel disease	
Greg Chambers	WEDNESDAY June 4th	11:00-12:30		A	Moderator	JESPeR Session - Artificial Intelligence: The downfall of the paediatric radiologist?	
Greg Chambers	FRIDAY June 6th	14:00-15:30	20m	B	Speaker	Imaging of paediatric liver tumors; imaging strategy, mimics and pitfalls	
Greg Chambers					BOARD	ESPR Board member	
Guglielmo Conti	Poster	Cardio-Thoracic			First Author	Hermansky-Pudlak Syndrome Type 2: A Case Report of a rare form of Childhood Interstitial Lung Disease and Literature Review.	194
Guglielmo Conti	FRIDAY June 6th	11:00-12:30	7m	A	Presenter	Assessing Congenital Lung Malformations: The Role of Prenatal Ultrasound and MRI – A Single-Center Experience	193
Hanna Hebelka	WEDNESDAY June 4th	14:00-15:30	7m	B	Presenter	Multiple quantitative ultrasound liver markers are applicable also in children and adolescents with severe obesity	19
Hanna Hebelka	THURSDAY June 5th	16:00-17:30	7m	B	Presenter	Play Therapy and Study Visits: Reducing need for Anesthesia and Sedation in Pediatric MRI	52
Hans Merks	FRIDAY June 6th	16:00-17:30	20m	B	Speaker Clinical	The oncologist's point of view	
Helen Woodley	FRIDAY June 6th	14:00-15:30		B	Moderator	Oncology Task-force Session: Mastering Imaging of Paediatric Liver Tumors- Essential tools and techniques	
Ian Simcock	TUESDAY June 3rd	16:00-17:30	20m	B	Lecturer	How to get involved in research	243
Ilze Apine	FRIDAY June 6th	16:00-17:30	20m	A	Speaker	Cumulative Dose Exposure and radiation protection in children with cancer	
Ina Popescu	Poster	Education			First Author	Persistent hyperplastic primary vitreous: a radiologic approach on pediatric leukocoria	121
Ionel STANUCA	TUESDAY June 3rd	16:00-17:30		B	Moderator	Radiographers are important too!	
Ionel STANUCA					Local Org. Committ.	Local Organizing Committee	
Irmina Sefic Pasic	Poster	Cardio-Thoracic			First Author	Lung ultrasound for diagnosing necrotizing pneumonia - is it sufficient for an accurate diagnosis?	142
Iulia LUPASCU					Local Org. Committ.	Local Organizing Committee	
Iustin-paul Caliman	Poster	Neuro			First Author	A Glimpse into Pediatric Neuro-Radiology: Acute Disseminated Encephalomyelitis in a 7-Year-Old with Favorable Outcome	167
James Hwang	Poster	Case Report			First Author	Hands-on with the spaghetti sign: untangling the fibrolipomatous hamartoma in an 11-year-old girl.	6
James Hwang	Poster	Case Report			First Author	Twists of copper: unraveling the clinical puzzle of Menkes Disease.	29
James Hwang	Poster	Case Report			First Author	The hidden bite of sickle cell disease: unveiling an important gastrointestinal complication.	49
Jan Rudolph	Poster	AI			First Author	Evaluating an AI Tool Trained on Adult Radiographs for Accurate Measurement of Pediatric Hip Joint Angles	47
Jan Rudolph	FRIDAY June 6th	11:00-12:30	7m	A	Presenter	Breaking Barriers in AI Pediatric Fracture Detection: Validating the Effectiveness of Two Leading AI Algorithms	60
Jane Burns	Poster	Cardio-Thoracic			First Author	A Review of the Diagnostic Yield and Clinical Appropriateness of Intravenous Iodinated Contrast for First CT Thorax Investigation for Children in a Tertiary Referral Centre.	191
Jane Burns	Poster	Education			First Author	An Educational Review of Common Paediatric Central Nervous System Tumours	199
Jason Lee	Poster	Other			First Author	Utilization of radiologist assistants in academic medicine	183
Jeevesh Kapur	MONDAY June 2nd	09:00-10:30	40m	A	Lecturer	A modern Radiologist's Guide to AI	
Jeevesh Kapur	FRIDAY June 6th	11:00-12:30		A	Moderator	Scientific Session 6 (A.I. & Fetal imaging)	
Jeffrey Traubici	THURSDAY June 5th	09:00-10:32	15m	B	Invited speaker	Imaging of the Pediatric Diaphragm	
Jennifer Grehan	TUESDAY June 3rd	09:00-10:30	20m	B	Lecturer	Patient centred care	246
Jennifer Grehan	TUESDAY June 3rd	09:00-10:30		B	Moderator	Top tips for paediatric imaging	

Jennifer Lee	Poster	Abdominal (GI&GU)			First Author	The utility of the MCUG in assessing the posterior urethra in males - the experience of a tertiary paediatric referral centre.	125
Jennifer Nicholas	FRIDAY June 6th	11:00-12:30	20m	B	Speaker	Cases from The Society for Pediatric Radiology (SPR)	
Jessica Cooper	TUESDAY June 3rd	11:00-12:30	20m	B	Lecturer	MRI apnoea protocols and gated/triggered protocols in children with sedation and GA	
Jessica Eaton	TUESDAY June 3rd	09:00-10:30	20m	B	Lecturer	Adaptation of technique	
Jessica Eaton	TUESDAY June 3rd	16:00-17:30	20m	B	Lecturer	Health and wellbeing of radiographers undertaking SPA imaging	
Jessica Eaton	Poster	Oncology			First Author	Experiences of Parents and Caregivers During Paediatric Medical Imaging: A Systematic Review of Support Mechanisms and Challenges	5
Jessie Aw-Zoretic	TUESDAY June 3rd	16:00-17:30	20m	A	Lecturer	Neuroinflammatory and Demyelinating Disorders in children: demystifying, review and updating with a focus on MOGAD	248
Joanna Fornalska	Poster	Case Report			First Author	Plasmablastic lymphoma as a neoplasm associated with liver transplantation	90
Joanna Kasznia-Brown	FRIDAY June 6th	09:00-10:30		B	Moderator	Outreach TF - The ESPR meets AOSPR: Challenges in modern paediatric imaging (BROADCASTING)	
Joanna Kasznia-Brown	FRIDAY June 6th	11:00-12:30		B	Moderator	WFPI Session: Let's travel again - around the world in 80 challenging cases (BROADCASTING)	
Jochen Herrmann	MONDAY June 2nd	11:00-12:30	20m	A	Lecturer	Liver transplantation technics and preoperative work-up	
Joice Prodigios	THURSDAY June 5th	16:00-17:30	7m	B	Presenter	Detection of lung nodules in children comparing FDG PET/MR, T2WI, and ZTE with CT	144
Jordan Rapp	THURSDAY June 5th	09:00-10:30	7m	B	Presenter	Dual-Energy CT pulmonary perfusion in the assessment of disease severity in infants with Chronic Lung Disease of Prematurity	126
Joseph Kim	Poster	Case Report			First Author	A case study in diagnostic detective work: integrating clinical findings and prior imaging to detect polycystic ovarian syndrome	9
Joseph Kim	Poster	Case Report			First Author	A case of posterior reversible encephalopathy syndrome: a rare but potential complication of Denys-Drash syndrome	10
Joseph Kim	Poster	Case Report			First Author	A multimodality case review of infantile hemangiomas of the upper eyelid	11
Joseph Kim	Poster	Case Report			First Author	A growing pain in the neck: a case report of human botfly myiasis	13
Joseph Kim	Poster	Case Report			First Author	Challenging localization of an abdominal teratoma in a 4-year-old boy	14
Joseph Kim	Poster	Neuro			First Author	An imaging review of branchial cleft cysts and their cystic mimics	12
Josephine Bomer-Skogstad	FRIDAY June 6th	09:00-10:30		A	Moderator	Best posters	
Joy Barber	Poster	Abdominal (GI&GU)			First Author	Child-friendly imaging for paediatric inflammatory bowel disease	63
Joy Barber	Poster	MSK			First Author	Radiographic findings in ACAN-related short stature: an under-recognised skeletal dysplasia	62
Julian Jürgens	TUESDAY June 3rd	11:00-12:30	20m	A	Lecturer	Non-invasive diagnosis imaging of portal hypertension and diagnosis algorithm.	
Julian Jürgens					BOARD	ESPR Board member	
Jungwoo Kang	WEDNESDAY June 4th	16:00-17:30	7m	B	Presenter	Predictors of Patellofemoral Instability in a Paediatric Population: a Retrospective Study	75
Jutta Lorenz	TUESDAY June 3rd	14:00-15:30	15m	B	Lecturer	i.v.-Contrast in Pediatric CT	
Karen Rosendahl	WEDNESDAY June 4th	14:00-15:30		A	Moderator	MSK Task-force Session:	
Karen Rosendahl	WEDNESDAY June 4th	16:00-17:30		B	Moderator	Scientific Session 3 (MSK)	
Karen Rosendahl					BOARD	ESPR Board member	
Karl Bohlin	WEDNESDAY June 4th	14:00-15:30	7m	B	Presenter	Ultrasound elasticity, dispersion and attenuation imaging as Potential Tools for Detecting Liver Affection in Children with Cystic Fibrosis	86
Katarina Chow	Poster	Cardio-Thoracic			First Author	Review of a Fontan circulation for the paediatric radiologist.	95
Kathrine Suther	MONDAY June 2nd	14:00-15:30	20m	A	Lecturer	Routine post op work up (How to perform a state of the art post op examination, Normal Doppler, what are the most reliable measures, how to optimise the scan in a moving child, value of new techniques, when to use US contrast etc)	
Kristina LENART	WED + THU				OFFICE STAFF	ESPR Office Staff 1	

Lalitphan Nimmankiatkul	FRIDAY June 6th	09:00-10:30	5m	A	Presenter	Sarcopenia and sarcopenic obesity after chemotherapy in childhood lymphoma	18
Lalitphan Nimmankiatkul	Poster	Oncology			First Author	Sarcopenia and sarcopenic obesity after chemotherapy in childhood lymphoma	18
Laura Tantarri De Horatio	WEDNESDAY June 4th	14:00-15:30		A	Moderator	MSK Task-force Session:	
Laura-Diana Ghindeanu	Poster	Case Report			First Author	Unveiling an Unexpected Diagnosis: A Pediatric Case of Esophageal Leiomyomatosis	169
Lavinia-Claudia Neculoiu	Poster	Abdominal (GI&GU)			First Author	A Series of Cases of Sonographic Findings in Juvenile Polyps and the Differential Diagnosis of Lower Gastrointestinal Bleeding	84
Léa Geiger	FRIDAY June 6th	11:00-12:30	7m	A	Presenter	Multivendor comparison study of AI algorithms for automated fracture detection in paediatric patients	74
Lene Laborie	WEDNESDAY June 4th	11:00-12:30	20m	A	Speaker	Why paediatric specific AI tools are needed : the evidence	
Lil-Sofie Ording Muller	MONDAY June 2nd	14:00-15:30	20m	A	Lecturer	Pre tx work radiological up (when and how and who to select for cross sectional imaging, what the surgeons need to know)	
Lil-Sofie Ording Muller	MONDAY June 2nd	14:00-15:30		A	Moderator	Kidney transplant	
Long Ching	FRIDAY June 6th	09:00-10:30	5m	A	Presenter	Primary anti-phospholipid syndrome – How Radiologist can help?	24
Long Ching	Poster	Case Report			First Author	Primary anti-phospholipid syndrome – How Radiologist can help?	24
Loukia Tzarouchi	Poster	Education			First Author	BACK TO BASICS: IMAGING FINDINGS OF AIR LEAK SYNDROME IN THE NEONATAL INTENSIVE CARE UNIT	141
Lucia Fernandez	MONDAY June 2nd	11:00-12:30	20m	A	Lecturer	Management of biliary complications -??? ONLINE/ONSITE TBC	
Luis Octavio Tierradentro-Ga	THURSDAY June 5th	09:00-10:30	7m	B	Presenter	Pulmonary CT findings in bronchopulmonary dysplasia: association with pulmonary vein stenosis and one-year mortality	146
Luis Octavio Tierradentro-Ga	Poster	Cardio-Thoracic			First Author	Pulmonary CT findings in bronchopulmonary dysplasia: association with pulmonary vein stenosis and one-year mortality	176
Luis Octavio Tierradentro-Ga	Poster	Case Report			First Author	Subpial hemorrhage in infants with underlying high-flow vascular malformations	201
Luis Octavio Tierradentro-Ga	Poster	Interventional			First Author	Navigating tiny vessels: advancing catheter-guided neuroangiography in children	147
Luis Octavio Tierradentro-Ga	FRIDAY June 6th	09:00-10:30	5m	A	Presenter	Subpial hemorrhage in infants with underlying high-flow vascular malformations	201
Luis Riera	THURSDAY June 5th	14:00-15:30	20m	A	Speaker	Incidental lung nodules in both oncology and non-oncology paediatric patients: How to manage?	43
Maarten Leguin	WEDNESDAY June 4th	09:00-10:30	7m	B	Presenter	Mammillary body and hippocampal injury after acute perinatal arterial ischemic stroke	57
Maciej Murawski	FRIDAY June 6th	14:00-15:30	20m	B	Speaker Clinical	Surgery in paediatric liver tumours: what a radiologist should know	
Madalina Ianc-Titei	Poster	Abdominal (GI&GU)			First Author	Omphalomesenteric Duct Anomalies in Children	202
Marcel Dijkshoorn	MONDAY June 2nd	09:00-10:30	30m	A	Lecturer	Photon-counting CT	
Marcus Otavio Silva de Camp	WEDNESDAY June 4th	09:00-10:30	7m	B	Presenter	To give or not to give contrast: a clinician's or radiologist's decision?	215
Marek Kardos	Poster	Cardio-Thoracic			First Author	UNILATERAL ABSENCE OF THE PULMONARY ARTERY: RADIOLOGICAL FINDINGS IN TWO CLINICAL SCENARIOS	16
Maria Antonietta Francavilla	FRIDAY June 6th	16:00-17:30	20m	A	Speaker	Cumulative Dose Exposure and radiation protection in children with chronic conditions	223
Maria Chiara Bonanno	FRIDAY June 6th	11:00-12:30	7m	A	Presenter	Performance of a deep learning-based algorithm for automated measurements of Cobb angles on pre-operative spine radiographs in adolescent idiopathic scoliosis	34
Maria Daniela Vizitiu					Local Org. Committ.	Local Organizing Committee	

Maria I Argyropoulou	WEDNESDAY June 4th	08:30-09:00	5m	A	Introduction	ESPR	
Maria I Argyropoulou	WEDNESDAY June 4th	09:00-10:30		B	Moderator	Scientific Session 1 (Neuro & Thorax)	
Maria I Argyropoulou	WEDNESDAY June 4th	16:00-17:30		A	Moderator	Neuro Task-force Session: How to deal with the encephalopathic child	
Maria I Argyropoulou	TUESDAY June 3rd	14:00-15:30	20m	A	Lecturer	Functional Anatomy: DTI and fMRI made practical!	
Maria I Argyropoulou	TUESDAY June 3rd	14:00-15:30		A	Moderator	Advanced Neuroanatomy with pathological correlations	
Maria I Argyropoulou	THURSDAY June 5th	11:00-13:00		A	Moderator	PLENARY SESSION	
Maria I Argyropoulou	THURSDAY June 5th	11:00-13:00	5m	A	Laudatio	Laudatio for Catherine Garel	
Maria I Argyropoulou	MONDAY June 2nd	08:45-09:00	5m	A	Introduction	WELCOME CEREMONY	
Maria I Argyropoulou	FRIDAY June 6th	17:30-18:00	5m	A	Conclusions	PRIZES AWARD & CLOSING CEREMONY	
Maria I Argyropoulou					BOARD	ESPR Board member	
Maria Kazakou	Poster	Education			First Author	Ultrasound Exploration of the Lumbosacral Region: Beyond the Surface	165
Maria Raissaki	THURSDAY June 5th	09:00-10:30		B	Moderator	Scientific Session 4: Thoracic & Cardio-vascular	
Maria Raissaki	THURSDAY June 5th	11:00-13:00	10m	A	Moderator	EDiPR awarding	
Maria Raissaki	THURSDAY June 5th	16:00-17:30	25m	A	Speaker	Infant bones: anatomic variants and considerations	157
Maria Raissaki	Poster	MSK			First Author	Paediatric insufficiency fractures of the spine	88
Maria Raissaki					BOARD	ESPR Board member	
Maria Stoenica	Poster	Abdominal (GI&GU)			First Author	Differential Diagnosis of Liver Masses in Early Childhood: a Brief Review	168
Maria Vizitiu	Poster	Abdominal (GI&GU)			First Author	Focal Nodular Hyperplasia: A Closer Look at Atypical Presentations	213
Maria Vizitiu	Poster	Cardio-Thoracic			First Author	A „Vice versa” cardiac malformation: situs inversus with laevocardia, atrio-ventricular with ventriculo-arterial discordances and cono-truncal anomaly	212
Maria Vizitiu	Poster	Oncology			First Author	Voluminous Benign Liver Lesions in Pediatrics: Key Features and Differential Diagnosis	209
Marian POP	TUESDAY June 3rd	09:00-10:30		A	Moderator	How to do it -in childrens	
Marian POP	THURSDAY June 5th	09:00-10:30		B	Moderator	Scientific Session 4: Thoracic & Cardio-vascular	
Marian POP					Local Org. Committ.	Local Organizing Committee	
Mariana Andreea Calota	WEDNESDAY June 4th	14:00-15:30	7m	B	Presenter	Imaging aspects of hepatic angiosarcomas in children	98
Mariana COMAN	THURSDAY June 5th	16:00-17:30		B	Moderator	Scientific Session 5: Oncology & RP	
Mariana COMAN					Local Org. Committ.	Local Organizing Committee	
Mariantonietta Francavilla	Poster	Cardio-Thoracic			First Author	Ultrasound patterns of Mycoplasma Pneumoniae pneumonia in children: a multicentre study in the post-COVID-19 pandemic era	173
Marie Cassart	THURSDAY June 5th	11:00-13:00	10m	A	Honorary member	Fetal Imaging: a fascinating experience	244
Marina Rontogianni	Poster	Education			First Author	Breast from birth to adulthood: all we need is ultrasound	143
Marina Vakaki	WEDNESDAY June 4th	14:00-15:30	20m	A	Speaker	New reference standards for ankle ultrasound	189
Mario Sinti Ycochea	Poster	AI			First Author	Artificial Intelligence-based assessment of malignant Thyroid Imaging and Reporting Data System (TI-RADS) features in Pediatric Ultrasound	240
Marius Sorin Marin	Poster	Case Report			First Author	Successful cryoablation of a low-flow vascular malformation in the distal fibular region: A case report.	97
Marius Sorin Marin	FRIDAY June 6th	09:00-10:30	5m	A	Presenter	Successful cryoablation of a low-flow vascular malformation in the distal fibular region: A case report.	97
Marta Gomez-Chiari	THURSDAY June 5th	09:00-10:30	10m	A	Speaker	Prenatal diagnosis of CNS vascular malformations -a case-based presentation	
Martin Verhagen	MONDAY June 2nd	11:00-12:30	20m	A	Lecturer	Evaluation of the liver graft and diagnosis of complications	
Marzia Vaccaro	THURSDAY June 5th	16:00-17:30	7m	B	Presenter	FNH-like lesions in pediatric patients undergoing chemotherapy: radiological characteristics and evolution during MRI follow-up	70
Marzia Vaccaro	Poster	Neuro			First Author	Pediatric brain abscesses as intracranial complications of ENT diseases: assessment with computed tomography and magnetic resonance imaging	120
Matjaž Homan	WEDNESDAY June 4th	09:00-10:30	25m	A	Speaker Clinical	Inflammatory bowel disease in children: clinical perspective	

Matthias Waginger	THURSDAY June 5th	16:00-17:30	7m	B	Presenter	Dose development of CT Scans in a pediatric population – preliminary results	81
Matthias Waginger	Poster	CT & Dose / Rad protection			First Author	Comparing Imaging Quality and Radiation Dose Exposure in Pediatric Inner and Middle Ear Imaging using Dyna CT and Multi Slice CT	79
Maura Ryan	TUESDAY June 3rd	16:00-17:30	20m	A	Lecturer	Temporal bone imaging and evaluating cochlear implant	
Maximilian von-Laffert	THURSDAY June 5th	14:00-15:30	20m	A	Speaker Clinical	Pleuropulmonary blastoma in imaging and pathology: why the distinction between PPD and CPAM is difficult for radiologists	253
Mi Jin Song	Poster	Case Report			First Author	Congenital infantile fibrosarcoma of the oropharynx misdiagnosed as epignathus: Fetal ultrasonography, MRI and pathology	21
Mi Jin Song	Poster	Fetal			First Author	Spontaneous regression of congenital lung masses: Serial prenatal ultrasonography and postnatal CT	72
Mi Jin Song	FRIDAY June 6th	09:00-10:30	5m	A	Presenter	Spontaneous regression of congenital lung masses: Serial prenatal ultrasonography and postnatal CT	72
Michael Morgan	FRIDAY June 6th	09:00-10:30	5m	A	Presenter	Metamorphosis: An imaging case study of fibrodysplasia ossificans progressive (FOP)	45
Michael Callahan	WEDNESDAY June 4th	16:00-17:30	15m	B	Invited speaker	Ultrasonographic evaluation of superficial lumps, bumps and hernias in infants and children	
Michael Callahan	Thursday June 5	17.30-19.00	3m	A	Guest SPR	Invited Guest. Short presentation in the ESPR General Assembly.	
Michael Callahan	THURSDAY June 5th	11:00-13:00	20m	A	Invited speaker	Considering the risks of CT radiation versus the risks of sedation for MRI in infants and children	
Michael Morgan	Poster	Case Report			First Author	Metamorphosis: An imaging case study of fibrodysplasia ossificans progressive (FOP)	45
Michael Riccabona	WEDNESDAY June 4th	14:00-15:30		B	Moderator	Scientific Session 2 (Abdominal)	
Michael Riccabona	THURSDAY June 5th	11:00-13:00	40m	A	Jacques Lefebvre lec	Jacques Lefebvre Lecture: Ultrasonography in pediatric radiology - far more than just the basic work horse	33
Michael Yafi	Poster	Neuro			First Author	Magnetic resonance imaging results in children with growth hormone deficiency	1
Michael Zellner	THURSDAY June 5th	09:00-10:30	7m	B	Presenter	Diagnostic performance of triplanar real-time cine FIESTA MRI in preschool children – preliminary comparison to dedicated lung MRI	91
Michal M Skoczylas	Poster	MSK			First Author	Bone age assessed in a pilot study using Greulich and Pyle atlas and Hernandez, Sanchez, Sobradillo and Rincon atlas in children with achondroplasia is delayed	237
Milena Kędra	Poster	Abdominal (GI&GU)			First Author	DIAGNOSING AND MANAGING BURKITT LYMPHOMA IN A PEDIATRIC PATIENT – HOW IMPORTANT ARE RADIOLOGICAL IMAGING?	46
Monica Galeano	WEDNESDAY June 4th	16:00-17:30	7m	B	Presenter	Transition to Adulthood and Hypophosphatemic Rickets: Radiological Findings and Strategies (32 Years of Hospital Experience)	235
Monica Rebollo Polo	WEDNESDAY June 4th	11:00-12:30		B	Moderator	Post-mortem Task-force:	
Monica Rebollo Polo	THURSDAY June 5th	09:00-10:30	10m	A	Speaker	The fetal challenge : an interactive Quizz	
Monica Rebollo Polo	THURSDAY June 5th	09:00-10:30		A	Moderator	Fetal Task-force Session	
Montserrat Domingo Ayllón	Poster	Abdominal (GI&GU)			First Author	Pictorial review of uterine malformations encountered in the paediatric population of Tarragona area from 2019 to 2024.	40
Montserrat Domingo Ayllón	Poster	Cardio-Thoracic			First Author	The role of the paediatric radiologist in pulmonary infections in children.	53
Morgan Mcbee	FRIDAY June 6th	11:00-12:30	7m	A	Presenter	Predicting age from pediatric chest radiographs using artificial intelligence	71
Murat Kocaoglu	WEDNESDAY June 4th	14:00-15:30	7m	B	Presenter	Associations between MRI findings and Endoscopic Ultrasound findings in Children with Recurrent and Chronic Pancreatitis	15
Narcisa Munteanu	Poster	Abdominal (GI&GU)			First Author	Bowel Wall Thickening in Pediatric Patients: Etiology and Ultrasound Findings	216
Narcisa MUNTEANU					Local Org. Committ.	Local Organizing Committee	
Nasreen Mahomed	FRIDAY June 6th	14:00-15:30	15m	A	Speaker	Paediatric Radiology AI Leadership in South Africa	
Nazli Gulsum Akyel	WEDNESDAY June 4th	16:00-17:30	7m	B	Presenter	Pediatric Accessory Navicular Bone on MRI: Prevalence and Symptomatology	103
Nazli Gulsum Akyel	Poster	Abdominal (GI&GU)			First Author	Postoperative Acute Kidney Failure Secondary to Bilateral Ureteric Sludge in Children	96
Nazli Gulsum Akyel	Poster	MSK			First Author	Accessory Navicular Bone in Children: Prevalence, Type, and the Influence of Age and Sex on CT	94
Nazli Gulsum Akyel	FRIDAY June 6th	11:00-12:30	7m	A	Presenter	Incidence and Spectrum of Fetal Anomalies Detected by MRI: Complementary to Ultrasound	42

Neal Shukla	Poster	Cardio-Thoracic			First Author	Intralobar Pulmonary Sequestration: A Case Report with Imaging and Differential Considerations	232
Neal Shukla	Poster	Neuro			First Author	A case of misdiagnosed cortical tubers	228
Neal Shukla	Poster	Neuro			First Author	Vein of Galen Malformation: A Case Illustrating Imaging Features and Potential Complications	231
Neal Shukla	Poster	Oncology			First Author	A Rare Case of Askin Tumor	229
Oana Alexandra Isac	Poster	Case Report			First Author	History repeats itself. The importance of recognizing a rare syndrome	92
Oana Noelle Popa	Poster	Abdominal (GI&GU)			First Author	The role of ultrasound and hydrosonegography in evaluating pediatric inflammatory bowel disease	82
Oana Noelle Popa	FRIDAY June 6th	09:00-10:30	5m	A	Presenter	The role of ultrasound and hydrosonegography in evaluating pediatric inflammatory bowel disease	82
Oana-Stefania Garbea	Poster	Neuro			First Author	Retroclival hematoma, a truly 'don't miss' lesion	22
Ola Alahmadi	Poster	Oncology			First Author	Diagnostic accuracy of MRI and imaging characteristics of pediatric neuroendocrine tumors	100
Ola Kvist	THURSDAY June 5th	14:00-15:30	20m	B	Speaker	How to start a research career in paediatric radiology: what I have learned	
Olubukola Omidiji	FRIDAY June 6th	11:00-12:30	20m	B	Speaker	Cases from The African Society of Paediatric Imaging (AfSPI)	
Osman Nuri Bayrak	Poster	Cardio-Thoracic			First Author	Detection of coronary artery anomalies associated with transposition of the great arteries in neonates using single-heartbeat prospective ECG-gated cardiac CT: A single-center Experience with low tube voltage (80 kV) and adaptive statistical iterative reconstruction	136
Otilia Maria FUFUZAN	WEDNESDAY June 4th	12:30-13:00	30m	A	jESPeR Lecture	Duplex urinary tract - not as simple as it sounds	131
Otilia Maria FUFUZAN	TUESDAY June 3rd	16:00-17:30		A	Moderator	Updates	
Otilia Maria FUFUZAN					Local Org. Committ.	Local Organizing Committee	
Owen Arthurs	THURSDAY June 5th	16:00-17:30	25m	A	Speaker	Differentiating ante-mortem from post-mortem findings on post-mortem imaging (body)	
Owen Arthurs					BOARD	ESPR Board member	
Oystein Olsen	MONDAY June 2nd	14:00-15:30	20m	A	Lecturer	Early and late complications illustrated with clinical examples	
Par Gerwins	MONDAY June 2nd	16:00-17:30	25m	A	Lecturer	The (interventional and drug) treatment of lymphatic flow disorders	
Patrick Cooper	Poster	CT & Dose / Rad protection			First Author	Dose and image quality optimization in whole spine radiography across Children's Health Ireland: a quality improvement project	106
Pei Shan Tsai	Poster	Case Report			First Author	A rare complication of GnRH analogue therapy in a girl with central precocious puberty	23
Philippe Petit	WEDNESDAY June 4th	09:00-10:30	25m	A	Speaker	MR imaging in inflammatory bowel disease	
Philippe Petit	THURSDAY June 5th	11:00-13:00	5m	A	Laudatio	Laudatio for Marie Cassart	
Philippe Petit	MONDAY June 2nd	16:00-17:30	25m	A	Lecturer	Interpreting the MR lymphangiography (clinical examples)	
Philippe Petit					BOARD	ESPR Board member	
Preeyacha Pacharn	Poster	Abdominal (GI&GU)			First Author	Abernethy Malformation and Its Diverse Clinical Presentations: Three case series	104
Radhiya Minty	FRIDAY June 6th	11:00-12:30	7m	A	Presenter	Comparison of bone age assessment using manual Greulich and Pyle method versus automated BoneXpert method in South African children	8
Raluca-Oana Raianu	Poster	MSK			First Author	Uncommon presentation of recurrent Fibromatosis Coli in a male child – a case report	87
Rasha Alebbini	Poster	Abdominal (GI&GU)			First Author	The mystery of the paediatric mesentery unravelled.	41
Rick van Rijn	THURSDAY June 5th	14:00-15:30	20m	B	Speaker	The good, the bad, and the ugly: successful and failed research projects	
Rick van Rijn	THURSDAY June 5th	16:00-17:30	25m	A	Speaker	Differentiating ante-mortem from post-mortem findings on post-mortem imaging (brain)	
Rick van Rijn	THURSDAY June 5th	16:00-17:30	7m	B	Presenter	Imaging Rhabdomyosarcoma; the first international prospective imaging trial in paediatric soft tissue sarcoma	83
Rick van Rijn	THURSDAY June 5th	16:00-17:30		B	Moderator	Scientific Session 5 (Oncology & Radiation protection)	
Rick van Rijn	FRIDAY June 6th	17:30-18:00	5m	A	IPR 2026	PRIZES AWARD & CLOSING CEREMONY	
Rick van Rijn					BOARD	ESPR Board member	
Rida Salman	WEDNESDAY June 4th	16:00-17:30	7m	B	Presenter	Predictors of Discoid Morphology in Lateral Meniscal Tears: Introducing a Novel Meniscal Height Ratio	44

Robert Paul Guillerman	TUESDAY June 3rd	09:00-10:30	20m	A	Lecturer	Dynamic Airway Imaging	133
Robert Paul Guillerman	TUESDAY June 3rd	09:00-10:30		A	Moderator	How to do it -in children	
Robert Paul Guillerman	TUESDAY June 3rd	16:00-17:30	20m	A	Lecturer	New Pediatric Lung Diseases to Know	145
Roxana Popa-Stanila	WEDNESDAY June 4th	11:00-12:30	20m	B	Speaker	Benefits and limitations of fetal virtopsy (fetal postmortem 3T and 7T MRI)	
Roxana Popa-Stanila	THURSDAY June 5th	09:00-10:30		B	Moderator	Fetal Task-force Session	
Roxana Popa-Stanila	FRIDAY June 6th	11:00-12:30		A	Moderator	Scientific Session 6: A.I. Fetal imaging	
Ruchi Gandecha	Poster	Neuro			First Author	Neuroimaging findings in Infantile neuroaxonal dystrophy.	55
Rutger Jan Nievelstein	THURSDAY June 5th	14:00-15:30		B	Moderator	Research Committee Session: Tips & Tricks for next-generation paediatric radiology researchers	
Rutger Jan Nievelstein	THURSDAY June 5th	14:00-15:30	20m	B	Speaker	Chairperson's introduction: Update on research committee activities and projects	
Rutger Jan Nievelstein	FRIDAY June 6th	09:00-10:30		A	Moderator	Best posters	
Rutger Jan Nievelstein	FRIDAY June 6th	14:00-15:30		B	Moderator	Oncology Task-force Session: Mastering Imaging of Paediatric Liver Tumors- Essential tools and techniques	
Rutger Jan Nievelstein	FRIDAY June 6th	16:00-17:30	20m	A	Speaker	Implementation and use of Diagnostic Reference Levels as tool for optimization in pediatric radiology	
Rutger Jan Nievelstein	FRIDAY June 6th	17:30-18:00	10m	A	Prizes announcement	PRIZES AWARD & CLOSING CEREMONY	
Rutger Jan Nievelstein					BOARD	ESPR Board member	
Sam Doyle	THURSDAY June 5th	09:00-10:30	10m	A	Speaker Clinical	MRI-genetic phenotype correlation	
Sanja Mladenovic	Poster	Case Report			First Author	Lemierre syndrome – a forgotten complication of anaerobe (oro)pharyngeal infection	156
Savvas Andronikou	WEDNESDAY June 4th	16:00-17:30	20m	A	Speaker	Interpreting Regional Thalamic Signal Abnormality in Term Perinatal Hypoxic Ischemic Injury: considering secondary injury using delayed MRI scans	251
Savvas Andronikou	TUESDAY June 3rd	14:00-15:30	20m	A	Lecturer	Sphenoid base anatomy: a timeline for visualising normal synchondroses and foramina	252
Sedef Mevlüde Karaböcek	Poster	Case Report			First Author	Spontaneously Regression of Congenital Lobar Fluid Overload on Prenatal Ultrasound and Fetal MRI: A Case Report	67
Seema Toso	FRIDAY June 6th	14:00-15:30	20m	B	Speaker	Differentiation of benign and malignant liver lesions in children with known oncological disease	
Sercin Ozkok	FRIDAY June 6th	09:00-10:30	5m	A	Presenter	Cardiac MRI in Postoperative Tetralogy of Fallot: More than Valve Indication and Dysfunction – Integrating Advanced Imaging, Patient-Specific 3D Modeling, and Computational Fluid Dynamics	187
Sercin Ozkok	THURSDAY June 5th	09:00-10:30	7m	B	Presenter	Comparison of Gray-Blood and White-Blood Late Myocardial Enhancement in Pediatric Cardiac MRI:An Interobserver Agreement Study	179
Sercin Ozkok	THURSDAY June 5th	09:00-10:30	7m	B	Presenter	Relationship Between Septal/Free Wall Angle Ratio and Cardiac MRI Parameters in Postoperative Tetralogy of Fallot Patients	220
Sercin Ozkok	Poster	Cardio-Thoracic			First Author	Cardiac MRI in Aortic Coarctation: Integrating 3D Printing, Computational Fluid Dynamics, and Patient-Specific Surgical Planning	185
Sercin Ozkok	Poster	Education			First Author	Cardiac MRI in Postoperative Tetralogy of Fallot: More than Valve Indication and Dysfunction – Integrating Advanced Imaging, Patient-Specific 3D Modeling, and Computational Fluid Dynamics	187
Shaheer Baig	Poster	MSK			First Author	Pictorial review: MR Imaging features of paediatric soft tissue masses	76
Silvia Costa Dias	WEDNESDAY June 4th	14:00-15:30	20m	A	Speaker	Update on Imaging in JIA	159
Silvia Costa Dias	WEDNESDAY June 4th	16:00-17:30	7m	B	Presenter	Comparison of MRI and CEUS in the assessment of synovitis in children with JIA and knee involvement. Reliability of the methods	164
Simon McGuirk	MONDAY June 2nd	11:00-12:30	20m	A	Lecturer	Management of vascular complications	
Simon McGuirk	FRIDAY June 6th	14:00-15:30	20m	B	Speaker	PRETEXT Staging of pediatric liver tumours: update and challenges	
Simon McGuirk	FRIDAY June 6th	16:00-17:30		B	Moderator	Interventional Task-force Session: Lung nodules and mets - a multidisciplinary session	
Simona CERBU	WEDNESDAY June 4th	16:00-17:30		B	Moderator	Scientific Session 3: MSK	
Simona CERBU					Local Org. Committ.	Local Organizing Committee	
Snezana Milinkovic	Poster	Case Report			First Author	Ingestion of Button Battery with Severe Complications and Fatal Outcome - Case Report	102

Sofija Cvejic	Poster	Case Report				First Author	Congenital esophageal stenosis caused by tracheobronchial remnants	66
Sofija Cvejic	Poster	Case Report				First Author	Rare association between hypertrophic pyloric stenosis and midgut malrotation with volvulus and bowel necrosis	101
Sreekumar Muthiyal	Poster	Neuro				First Author	Clinico-radiological corroborative analysis of the inferior nasal turbinate hypertrophy and its summative effect on obliteration of postnasal space with coexisting adenoid hypertrophy; using novel radiological grading methods in paediatric patients- An institutional perspective.	108
Stefan Appelhaus	WEDNESDAY June 4th	14:00-15:30	7m	B		Presenter	Association of diaphragm motility with disease severity after congenital diaphragmatic hernia using ultrasound	117
Stefan Appelhaus	WEDNESDAY June 4th	14:00-15:30	7m	B		Presenter	Detecting recurrence of congenital diaphragmatic hernia using ultrasound	118
Stefan Teodorescu-Draghices	Poster	Case Report				First Author	A pediatric puzzle: clinical and radiological features of primary bone lymphoma	116
Stephanie Franchi-Abella	TUESDAY June 3rd	11:00-12:30		A		Moderator	Portal Hypertension	
Stephanie Franchi-Abella	MONDAY June 2nd	11:00-12:30		A		Moderator	Liver transplant	
Stephanie Franchi-Abella						BOARD	ESPR Board member	
Stéphanie Franchi-Abella	TUESDAY June 3rd	11:00-12:30	20m	A		Lecturer	When medical and endoscopic management fails: radiologic or surgical treatment.	
Supika Kritsanepaiboon	FRIDAY June 6th	09:00-10:30	20m	B		Speaker	The challenges of making accurate diagnosis in children	110
Suresh Pujar	WEDNESDAY June 4th	16:00-17:30	20m	A		Speaker Clinical	Pediatric acute encephalopathy : a clinical prospective for the radiologist	
Susan Shelmerdine	WEDNESDAY June 4th	14:00-15:30	20m	A		Speaker	AI in fracture detection	
Susan Shelmerdine	FRIDAY June 6th	14:00-15:30	20m	A		Speaker	Our multi-society statement paper for safe AI use	
Susan Shelmerdine	FRIDAY June 6th	14:00-15:30		A		Moderator	A.I. Task-Force Session: Leadership and Vision for Paediatric AI in Imaging	
Taisa Guarilha	FRIDAY June 6th	09:00-10:30	5m	A		Presenter	Urethral visualization on voiding urography: insights on VCUG and ceVUS	172
Taisa Guarilha	Poster	Abdominal (GI&GU)				First Author	Urethral visualization on voiding urography: insights on VCUG and ceVUS	172
Tamara Gorjanc	Poster	Oncology				First Author	Imaging challenges in the diagnosing undifferentiated embryonal sarcoma of the liver.	64
Tanay Suri	Poster	Neuro				First Author	Losing our senses – were they there to begin with?	32
Tanyia Pillay	Thursday June 5	17.30-19.00	5m	A		Guest AfSPI	Invited Guest. Short presentation in the ESPR General Assembly.	
Tarek Yousry	TUESDAY June 3rd	14:00-15:30	20m	A		Lecturer	Brain anatomy: how I found the important gyri and the critical white matter tracts	
Tejas Kapadia	Poster	Cardio-Thoracic				First Author	Optimizing Imaging Protocols for Paediatric Tuberculosis: A Regional Review of CT Utilization and status of Clinical Guidelines in the Northwest of England	112
Tejas Kapadia	Poster	Cardio-Thoracic				First Author	Imaging insights into Pneumocystis Jirovecii Pneumonia in immunosuppressed children: patterns, evolution, and clinical implications	154
Tejas Kapadia	Poster	Neuro				First Author	Dramatic entrance and clean exit: the variable neuro-imaging presentations of MOG-AD in children	227
Tejas Kapadia	Poster	Oncology				First Author	Snap, Crackle, and Skull: unmasking the imaging clues of aggressive paediatric skull base lesions	174
Tejas Kapadia	Poster	Oncology				First Author	Neuroblastoma in Disguise: Atypical presentations and unusual patterns	230
Teresa Santangelo	WEDNESDAY June 4th	09:00-10:30	7m	B		Presenter	Main Determinants of Tracheal Stenosis in Patients with Double Aortic Arch	161
Tijana Radovic	FRIDAY June 6th	09:00-10:30	5m	A		Presenter	Qualitative Assessment of Arterial Spin Labelling Perfusion Maps in Pediatric Patients with MRI-negative Epilepsy	31
Tijana Radovic	FRIDAY June 6th	09:00-10:30	5m	A		Presenter	Longitudinal assessment of renal allograft function in pediatric recipients using intravoxel incoherent motion (IVIM) and monoexponential diffusion-weighted imaging (DWI)	99
Tijana Radovic	Poster	Abdominal (GI&GU)				First Author	Longitudinal assessment of renal allograft function in pediatric recipients using intravoxel incoherent motion (IVIM) and monoexponential diffusion-weighted imaging (DWI)	99
Tijana Radovic	Poster	Neuro				First Author	Qualitative Assessment of Arterial Spin Labelling Perfusion Maps in Pediatric Patients with MRI-negative Epilepsy	31
Tim Cain	FRIDAY June 6th	09:00-10:30	20m	B		Speaker	Do we need to know more and more about less and less: Increasing pressure to subspecialise	

Torgrim Lysen Skiaker	WEDNESDAY June 4th	16:00-17:30	7m	B	Presenter	Increased bone marrow signal on T2 weighted sequences in whole body MRI of healthy children: change over time.	162
Tricia Kuah	Poster	Oncology			First Author	Imaging of paediatric inflammatory myofibroblastic tumours – insights from a bi-institutional case series for radiologists	27
Tudor Pop	TUESDAY June 3rd	11:00-12:30	20m	A	Lecturer Clinical	Epidemiology , clinical presentation and management algorithm	
Vanessa Rameh	WEDNESDAY June 4th	09:00-10:30	7m	B	Presenter	Post-radiation MR imaging features in different Molecular and Mutational Analyses in Pontine Pediatric Diffuse Midline Gliomas	51
Veronica Bordonaro	THURSDAY June 5th	09:00-10:30	7m	B	Presenter	Subclinical Hypoattenuated Leaflet Thickening (HALT) after Transcatheter Pulmonary Valve Replacement with self-expandable pulmonary valve: experience in a small cohort of Patients	166
Vivek Pai	Poster	Neuro			First Author	Imaging of Pediatric Skull Base Masses and Mass like Lesions	210
Vlad Bura	Poster	Abdominal (GI&GU)			First Author	Imaging uterine anomalies – from pediatric patients to clinical implications in adult life – a case-based review	221
Vrisiis Sarri	Poster	Education			First Author	Ultrasound as a navigator to hyperechoic liver lesions in children	200
Willemijn Klein	WEDNESDAY June 4th	11:00-12:30	20m	B	Speaker	Prenatal US versus postmortem MRI	239
Willemijn Klein	WEDNESDAY June 4th	11:00-12:30		B	Moderator	Post-mortem Task-force:	
Willemijn Klein	MONDAY June 2nd	16:00-17:30	20m	A	Lecturer	MR lymphangiography: the preparation and scanning protocol	122
Willemijn Klein	MONDAY June 2nd	16:00-17:30		A	Moderator	Lymphatic flow disorders in children	
Winnie CW Chu	FRIDAY June 6th	09:00-10:30		B	Moderator	Outreach TF - The ESPR meets AOSPR: Challenges in modern paediatric imaging (BROADCASTING)	
Winnie CW Chu	FRIDAY June 6th	11:00-12:30	20m	B	Speaker	Cases from The Asian and Oceanic Society for Paediatric Radiology (AOSPR)	245
Winnie CW Chu	Thursday June 5	17.30-19.00	5m	A	Guest AOSPR	Invited Guest. Short presentation in the ESPR General Assembly.	
Yoon Hoon Choi	FRIDAY June 6th	09:00-10:30	20m	B	Speaker	Infection-Triggered Acute Encephalopathy Syndrome: Key Insights for Pediatric Radiologists	
Zafeiria Papathanassiou	Poster	Abdominal (GI&GU)			First Author	TWO UNIQUE PEDIATRIC CASES OF INTESTINAL DUPLICATION CYSTS COMPLICATED WITH INTUSSUSCEPTION: CHALLENGES IN IMAGING AND THERAPEUTIC INTERVENTION	236
Zafeiria Papathanassiou	Poster	Case Report			First Author	Can a ruptured testis be saved? A case study in an adolescent patient.	234
Zoltan Harkanyi	WEDNESDAY June 4th	14:00-15:30	15m	B	Invited speaker	CEUS in pediatric benign liver masses with MR correlation	54
